

RENO QRP GROUP SLOW SPEED CW QRP NET REPORT

Hi all

Attached is the log of our last slow speed NET June 8, 2023

The NET was held from Hidden Valley the weather was sunny calm temp about 70F. NET started on time at 10:00 am on 7.045 MHZ. The noise level was S2 SFI 167 A index 5 K index 1 Xray C1.0.

There were 7 QNI today. Van W7IEX, Woody K1LB, Rob KA6JLT, Roy W7HJL, Mike Wa6ARA, Derek W7DLZ and at final call Ray W7TAP was I/O.

First up was Van from his home in south Reno using his FT DX 3K at 10 watts into his vertical Van gave a good report including the weather.

Next was Woody who was in the field at Huffaker Hills Trail Head using his IC 703 at 10 watts into his EFHW at 30 ft. Woody was enjoying a good day to be in the field.

Rob was next from his home using his IC 761 at 10 watts into his indoor antenna a loop with Magnet wire on the ceiling, Rob should be an inspiration to all who live in an apartment.

Roy from Walla Walla WA was next he gave me a compliment on the SOTA DX to Norway on 15 meters, Thank you Roy. Roy also gave RST reports also the weather at 75 degrees F.

Mike from Ridgecrest, CA he was using his KX3 at ten watts into his 80 MTR doublet. Mike mentioned that the temp was 82 degrees and was clear with no wind.

Last was Derek from Lemmon Valley north of Reno. Derek was using his FT DX 10 at ten watts. Derek gave RST reports on everybody on the NET. He reported the temp was 69 F and clouds were beginning to gather.

At last call Ray W7TAP QNI with I/O.

There were no last comments.

The NET was closed at 10:49 AM.

The next NET will be June 22, 2023, starting at 10:00 AM

Hope to hear you all again. 73/72 Ed/WD7Y

RENO QRP GROUP SLOW SPEED CW QRP NET REPORT

Hi all Attached is the log of our last slow speed NET June 22, 2023

The NET was held form Hidden Valley the weather was High clouds, calm, and cool. NET started on time at 10:00 am on 7.045 MHZ. The noise level was S2.5 SFI 176 A index 8 K index 2 Xray C1.8. There was only one QNI today Derek W7DLZ.

Derek gave his report from his home in Lemmon Valley north of Reno. He was using his FT DX !0 at ten watts his signal to me was 559 I was 539 to him indicating the conditions are poor. His antenna is the OCF Dipole up 35 ft. Derek also used his EFHW up 25 ft I copied both antennas at 559. Most all times when Derek checks in his signal is 579.

The low turnout today may be because of two reasons. One is that ARRL FD is this weekend, the other may be the conditions are so bad that I did not copy any weak signal.

The NET was closed at 10:18 AM.

The next NET will be July 6, 2023, starting at 10:00 AM

Hope to hear you all again. 73/72 Ed/WD7Y
