

RENO QRP GROUP SLOW SPEED CW QRP NET REPORT

Hi all;

The log of our last slow speed NET on **February 8, 2024** is attached.

The NET was held from Hidden Valley Park in Reno, NV. Weather today was partly cloudy and calm temp was cold.

The NET started on time at 11:00 am on 7.045 MHZ. The noise level was S2.5 The SFI 188 A index40 K index 2 Xray C5.1

There was 11 QNI today Mike WA6ARA, Craig AE7I, Derek W7DLZ, Krystal AJ6GC I/O, Joe KM6HJP, Rob KA6JLT, Bob KA6NSN, Roy W7HJL, Paul N6ILJ, Ray W7TAP, Dennis KN6QER.

First up was Mike from Ridgecrest, CA on his KX3 at 10 watts to his 80meter doublet. Mike made a good report that included his warmer Weather at 54 degrees F.

Next was Craig from his home in Reno, NV using his K2 at 10 watts into his STEPPRI antenna mounted on his tower. Craig told me that the temp is 32 degrees F, I am always interested in knowing what the temperature is when I am in the field.

And then Derek reported from Lemmon Valley with his Yaesu FT DX 10 at ten watts giving a good report including the weather. Derek was solid copy at 599 using his 80 meter EFHW at about 25 feet.

*** Beginning this year Craig has been activating some SOTA, he has been travelling with Derek to many Nevada Mountain tops. Check out the SOTA WEB page to find out when and where they may be found and work them.

Joe from Doyle, CA was next with both signals at 599. Joe uses his IC 7300 at 10 watts into a ERHW inverted "L" at 40 feet always glad to hear from him.

Rob was next but had problems, I don't know if it was his rig or paddle, it was a short Q.

Bob from Quincy with his Yeasu 747 into his COBRA antenna up 20 feet at 10 watts 599 here and there. Bob included the weather at 33 degrees F this has been a cold day.

From Walla Walla, WA Roy checked in with his K3 at 15 Watts he reported my signal at 539 and he said that all signals weak today. I copied Roy at 579 but he had some QSB and QRM on him.

Paul from Redlands, CA came up next I had a hard time coping him and sorry to say he copied just as badly, it was just one of those days.

Ray from Reno, NV was next but he had trouble sending today so it was a short report.

And then a drop in from S F, CA Dennis KN6QER he didn't know that we were on a NET and said sorry and then wished us 73.

At last call Rob KA6JLT and sorry for the problem at the start he said he copied all except Ray W7TAP.

No last comments.

The NET was closed at 12:08 AM.

Today was a record for QNI's thanks all for your comments.

The next NET will be Feb. 22, 2024, starting at 11:00 AM

Hope to hear you all again. 73/72 Ed/WD7Y

RENO QRP GROUP SLOW SPEED CW QRP NET REPORT

Hi all;

The log of our last slow speed NET on **February 22, 2024** is attached.

The NET was held from Hidden Valley Park in Reno, NV. Weather today was sunny and calm nice day for the field.

The NET started on time at 11:00 am on 7.045 MHZ. The noise level was S2.5 to S3 The SFI 170 A index 4 K index 2 Xray C1.8

There were 8 QNI today Mike WA6ARA, Van W7IEX, Bob KA6NSN, Woody K1LB, Phil AB7WE, Roy W7HJL, KM6HJP, and AJ6GC I/O.

First up was Mike he was operating in the desert near his home in Ridgecrest, CA. Using his KX2 at 10 watts into his SOTA A17FT vertical. Mike reported on the weather at 55 F, was a solid 579 to me.

Next was Van who also worked in the field today from Whites Creek Park in Reno. It was so good to hear from him as he has not QNI for a long time. Using his Argonaut at 10 watts into a vertical Van was 599 to me.

Following Van was Bob from Quincy, CA my signal to him was 599 with low QRN. Bob gave a fine report including his cold temp at 32 deg F. Bob was using his Yaesu 747 at only 5 watts today into his COBRA at 20 ft.

Woody was next, he too was in the field today at Huffaker Hills Trail Head. Woody was using his IC7300 at ten watts his signal was 599. Woody was enjoying the nice weather clear sky temp of 45 F.

And then Phil took his turn from his home in NW Reno, NV Phil was using his IC 7300 at 10 watts into his end fed inverted "L". Phil gave RST reports for all on the NET.

Roy from Walla Walla, WA was next his signal was 569 with QSB but I copied most all Roy also gave RST reports in his report.

At last call Joe from Doyle, CA checked in using his IC 7300 at 10 watts into his inverted "L" at 40 ft. The IC 7300 is very popular with the HAM's on the NET as there are 3 in use today.

At last comments Mike gave all a S5 or better.

The NET was closed at 1156 AM.

The next NET will be March 7, 2024, starting at 11:00 AM

Hope to hear you all again. 73/72 Ed/WD7Y
